

NumberGroup — Wholesale Call Rate Card

These are the wholesale per-call rates NumberGroup pays our upstream UK carrier. Members are billed at exactly these rates — never marked up. Rates current as of June 2026; the upstream carrier publishes monthly updates and the current version is always available at numbergroup.com/membership/call-rates.

PPM = pence per minute. PPC = pence per call (connection charge). Day / Evening / Weekend bands as defined in the upstream carrier's published schedule. International rows marked with an asterisk (*) are routed via an alternative wholesale carrier where it beats BT's rate — the price is still the exact wholesale cost we pay, passed through unmarked-up. Rows without an asterisk travel via BT Wholesale. Either way, your guarantee is the same: you never pay more than the BT Wholesale rate for any destination. High-fraud-risk destinations (premium-rate, satellite, payphone-originated and a small list of countries heavily used in toll fraud) are blocked by default on every NumberGroup Membership for the protection of Members.
